

Macromedia Dreamweaver MX Introductory Level

Course Objectives:

This course is designed for people with no or little experience of Dreamweaver MX. Delegates will learn how to create Internet/Intranet web pages and how to upload them to a remote server. Delegates will also learn skills for enhancing the design and presentation of their web pages.

Prior Knowledge Required:

No prior knowledge of Dreamweaver MX is required, but a reasonable level of PC literacy is assumed and delegates should be familiar with using the Internet.

Course Duration: 2 days, but course contents can be tailored if required.
